DATA SCIENCE AND ARTIFICIAL INTELLIGENCE

EMMA
CALVIÑO

EXPERIENCE

- Sep 2024
Aug 2025

MARKETING ASSISTANT

Faculty of Science and Engineering.

My main tasks included sending emails, scheduling meetings, organizing events, designing brochures, visualizing and analyzing data, as well as coordinating student ambassador teams.
- Sep 2024
Jan 2025

MENTOR

Univeristy and Zuyd University.

Maastricht, Limburg, Netherlands

As a Peer Mentor, I was assigned two groups of first-year students. My job was to ensure they had all the necessary information for their first year, as well as to regularly follow up and meet with them to address their concerns.
- Sep 2024
Dec 2024

TEACHER ASSISTANT

Faculty of Science and Engineering.

In this position, I helped students resolve their questions. The topics of these assignments included binary representations, algorithms, data structures, Java fundamentals, object-oriented programming (OOP), and interfaces.
- Jun 2023
Sep 2023

STUDENT AMBASSADOR

Maastricht University.

I worked with the Faculty of Science and Engineering on recruitment events aimed mainly at young people interested in pursuing a STEM degree.
- Sep 2025
Present

DATA SCIENCE AND AI ASSITANT

Custom Media K.K.. Tokyo, Japón

In this position, I worked to improve the team's marketing strategy by applying Machine Learning to identify patterns in the content and enhance audience engagement.

EDUCATION

- Jan 2022
Oct 2025

BACHELOR OF DATA SCIENCE AND ARTIFICIAL INTELLIGENCE

Maastricht University.
- Jan 2020
Dec 2022

BACHILLERATO

Colegio Obradoiro.

PROJECTS

- Event Organization MSV Incognito:

As part of the board of a student association, I was in charge of organizing and carrying out all its events for a year.
- Treasurer Philia:

As part of the board of a student association, I was responsible for the organization's finances and accounts for six months.
- Honors Program Maastricht University:

During my second year of undergraduate studies, I decided to enroll in the faculty's honors research program, known at Maastricht University as Marble 2.0. I was assigned to PhD researcher Dr. Barbara Franci, who supervised my year-long research project. I worked on Graph Theory and Game Theory, developing an algorithmic resource allocation solution that implements an auction system.
- Bachelor's Thesis Maastricht University:

I developed an adaptive user interface to integrate Explainable Artificial Intelligence (XAI) in order to enhance transparency and user engagement. The application includes a built-in AI system designed to provide predictions and recommendations based on health data.
