## ABOUT ME

I am currently a bachelor student in data science and AI. I am a very motivated person open to learn new skills! I have experience managing projects and love to take initiative. During my studies I pursued an entrepreneurship minor, therefore I have interest in the intersection of technological development and business.

## WORK EXPERIENCE

### Student Ambassador

September 2023 - June 2025

#### Maastricht University

I work with the faculty of science and engineering to reach out to prospective students and share the values of studying a STEM major. As an ambassador I constantly communicate with others, participate in presentations and team projects.

### Teacher Assistant

September 2024 - December 2024

#### Faculty of Science and Engineering

In my final bachelor year, I worked as a Teaching Assistant for the Computer Science Skills course at Maastricht University. I prepared labs, answered student questions, and supported assignments on binary representations, algorithms, data structures, Java, OOP, and interfaces. This role enhanced my communication skills and deepened my computer science knowledge.

### Student Assistant

September 2024 - August 2025

#### Faculty of Science and Engineering

As a Student Assistant in the Marketing Department of the Faculty of Science and Engineering at Maastricht University, I handle emailing, scheduling, organizing events, designing brochures, data visualization/analysis, and coordinating student ambassadors. This role has strengthened my organizational, communication, and analytical skills.

### Peer Mentor

September 2024 - January 2025

#### Maastricht University and Zuyd University

As a Peer Mentor, I supported two groups of freshmen by providing key information, holding regular check-ins, and addressing their concerns. The role strengthened my communication, emotional intelligence, and problem-solving skills.

### Data Science and AI Intern

September 2025 - February 2026

#### Custom Media K.K.

Worked at a B2B marketing company in Tokyo, where I implemented AI tools to optimize workflows and improve decision-making.

## EDUCATION

### Colegio Obradoiro

2020 - 2022

Spanish national scientific  
baccalaureat

### Maastricht University

2022 - 2025

#### Bachelor of Data Science and Artificial Intelligence

With an honours Program research path and a Minor in Entrepreneurship

# OTHER

---

## Event Manager

september 2023 - june 2024

### MSV Incognito

As part of the Board of the student association MSV Incognito of the department of advance computer sciences I focus on the organization and execution of all our events. This role helped me improve my communication, marketing and organizational skills.

## Treasurer

september 2024 - February 2025

### Philia

I took part as Treasurer of the board of the international student association in Maastricht called 'Philia'. During this period I was responsible of the finances of the assoacition. This role helped me develop skills with accounting, managing of resources and high-responsibility organization.

## Honours Program

september 2023- June 2024

### Data Science and Artificial Intelligence

During my second bachelor year I decided to enrol in the research Honors Porgram of my faculty. It is known in Maastricht University as 'Marble 2.0'. I was assigned to a PhD researcher, dr Barbara Franci, who supervised my one-year research project. I worked on Graph Theory and Game Theory, developing a resource-allocation algorithm solution that implements an Auction System. This project was very valuable and my first big sclae individual system built.

## Bachelor's Thesis

January 2025 - June 2025

### Data Science and Artificial Intelligence

While writing my CV im currently starting to work on my bachelors thesis. I will develop an adaptive User interface that implements Explainable AI to ensure user transparency and engagement. This application will have a built-in AI system that provides predictions and recommendations form healthcare data.
